WC Docket No. 05-196
911 Compliance Status Report

Dixie-Net is a facilities-based CLEC operating in LATA 482, headquartered in Ripley, MS. Dixie-Net began offering traditional wireline telephone service to residential and business subscribers in 2002. Full E-911 capability has always been part of our voice service offering.

As Dixie-Net began offering VoIP services to subscribers in the Mississippi LATA, 100% of those subscribers were afforded full E-911 capability just like those customers whose service is rendered via traditional wireline based delivery.

- We currently offer VoIP services to customers in the Mississippi LATA (LATA 482) only. We do not market or provide VoIP services to subscribers outside of the Mississippi LATA
- 100% of our VoIP subscribers are in the Mississippi LATA, and are provided with E-911 service in full compliance with the VoIP 911 Order.
- We are currently transmitting all calls to the appropriate PSAP.
- We do not solicit, nor do we provide VoIP services to customers outside of the Mississippi LATA
- We do not accept orders from customers outside of the Mississippi LATA
